

littershark[®]
smart shark dog

littershark[®] *smart shark dog*

The **smart shark dog** is a large-capacity bag dispenser holding up to 600 dog dropping bags. Made from high-quality stainless steel with a thickness of 2 mm, the dispenser is robust and offers optimum defence against vandalism. Elegant design, combined with well-thought-out functionality complement the smart appearance.

The **smart shark dog** can be installed anywhere. On walls, posts or simply where ever you want to fit it.

Removing a dog dropping bag is child's play and thanks to the patented tear-off system a constant supply is assured at all times.

Fast and easy to open.
Perfectly sprung flap.

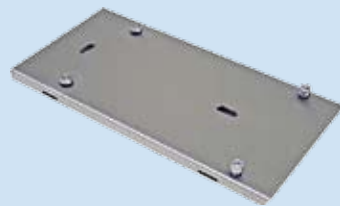

Effortless refilling of the
hanging dog dropping bags.

Design: Werner Zemp

Support pipe with concrete
base. Can be buried directly
in the ground.

1 box contains 5 blocks, each
consisting of 200 bags

Installation

Post mounting:

Wall mounting:

The integral positioning aid is suitable for various types of pole and helps to ensure a secure and fully perpendicular installation. Pull in the straps, clamp them securely and the installation is complete.

Once the mounting plate has been fitted, the **smart shark dog** is simply hung in place. Internal fixing screws ensure that it is securely supported.

Our field sales team will be delighted to show you the entire **littershark** collection
